---

Mr. Dean,

Attached is the paper that Ford will be discussing tomorrow at our 1pm meeting. This paper details 2012MY certification plans with respect to Ford's diesel SCR/DEF system addressing EPA and ARB's SCR Workshop guidance for reductant level, poor quality, tampering, freezing and self-healing. Note: I have also sent this paper to Greg Orehowsky and Linc Wehrly.

Regards,

*Todd Crompton*
